

PADI OPEN WATER COURSE TERMS AND CONDITIONS 2024

- We recommend that you do a minimum of a pool try dive before undertaking the PADI Open Water course. If you have decided not to follow this advice, we will not be able to provide you with a refund if you decide that you do not want to complete the course
- We have allowed adequate time to complete the course, so if you require extra time because you have not completed the homework/contacted us with any homework queries ahead of the theory session or encounter difficulty mastering a particular skill in the pool, this will be at an extra cost
- You have read the PADI Medical Form and confirmed that you can answer no to all of the questions or if you needed to answer yes to a question/s that required a doctor's sign-off, that you have since been signed off by a doctor completing the PADI Medical form and certifying you as fit to dive
- During the pool training you will be asked to swim 200 metres and tread water for 10 minutes, so if you have any concerns about this please let us know
- At the end of the PADI Open Water Referral Course you will still have 4 open water training dives to complete within one year at extra cost, either with us at a training completion weekend during the summer at South West Maritime Academy, near Bristol (limited places and dates available, please book on-line) or with any PADI dive school globally
- If you are unwell or there are unforeseen circumstances that prevent you from attending a session/the course, we will aim to offer you an alternative date or if this is not possible, we will refund as much of the costs as we can after we have covered your proportion of our non-recoverable costs, ie. staff wages and the PADI e-learning package
